

Putting
space to
better use

MCK PROJECTS

MK PROJECTS
FROM CONCEPT TO COMPLETION

OUR MOTO

Putting space to better use
and to enhance the quality of living by enhancing
the beauty and utility.

Putting space to

To be a leader in creating living & working environments of highest quality standards that are expressions of excellence.

better use

A Profile

M+K Projects offers a full range of interior turnkey solutions, be it residential or commercial, including planning, designing, project management, decorating services, deriving project costs, supervising, quality control, budget monitoring, execution and co-ordination of the entire project.

No matter what the space, no matter what the need, We will create living and working environments that are expressions of excellence. We take care of projects with talent & creative ideas, all to fit your taste, your style and your budget.

We strive for commitment to total customer satisfaction and strict adherence to completion and delivery schedules. We have the required manpower and skills to execute the project efficiently, in line with the client's requirements and satisfaction. We have handled a wide range of project giving us an insight to offer state of the art services.

We undertake any assignment as client's instructions and specifications and complete the assignment within a specified period of time. We have executed several projects successfully and have worked with various Architects and Engineers. All the projects executed by M+K Projects are functionally excellent and cosmetically superior and unique.

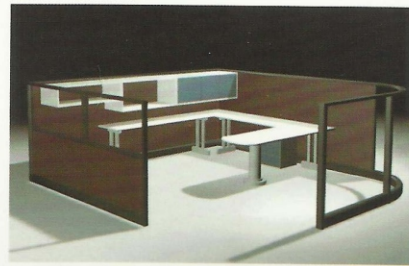

M+K Projects is committed to timely execution of projects, maintaining high self-imposed quality standards that always guarantee total customer satisfaction. Not only do we create best environments but special emphasis is laid on post project services to maintain an everlasting relationship.
